WRITING

The text below is about a student's free time activities. Read it carefully and write a similar text about your own free time activities.

I'm a high school student. It is my last year, so I'm preparing for the university entrance examination. I don't have much free time, but I try to create some extra time because I think life would be very boring without fun. Although I only have one or two hours a day for fun, I try to use it cleverly. In that limited free time, I sometimes hang out with my friends and chat. Sometimes I play basketball. There is an outdoor basketball court near my house, so it is very convenient to take a couple of shots. When I don't feel like going out, I stay at home and play a computer game. I used to play a lot more computer games. I was like an addict. My parents hated me because I was always in my room playing games. But now I've changed. I play a game once or twice a week and only for two hours at most. After all, I'm preparing for an important exam and I should use my free time wisely.
