1. - 3. soruları aşağıdaki parçaya göre cevaplayınız.

Allergies have a strong genetic basis, as they can be inherited from parents to children. However, inheriting allergies doesn't guarantee that the children will definitely develop them. It only increases the possibility of having allergies. Research on the genetics of allergies has revealed that several allergic conditions, such as asthma and atopic eczema, are closely linked to genetic factors. Genes play a significant role in various health conditions, including allergies, as they determine physical and biological characteristics, and can affect the development of allergic reactions. In short, the genetic basis of allergies involves the inherited genes from parents, with specific ones influencing the chance of developing allergic conditions. This information highlights the significance of genetics in understanding allergic diseases and provides valuable insights into genetics and allergic reactions and how to treat them.

1. It is stated in the passage that children ----.

- A) develop allergies without any connection to their parents
- B) have a lot of allergies but they don't have them when they grow up
- C) are mostly allergic to dust when they are still young
- D) don't get any allergies from their parents when they are first born
- E) might inherit allergies from their parents but they may not develop them

2. According to the passage, asthma ----.

- A) can be treated easily when children are still young
- B) is an allergic condition that is highly related to genetic factors
- C) is highly deadly and people have to be on strict control
- D) is not connected to any kind of genetics that come from parents
- E) is not an allergic reaction but an illness that can happen to anyone

3. Which of the following is true about the connection between genetics and allergies according to the passage?

- A) It is just a theory that there is a relation between genetics and allergies.
- B) The genetic allergies appear after the age of eighteen.
- C) Understanding the relations between them might help develop better treatments.
- D) The connection between them doesn't help the researches.
- E) Genetics do not play any role in someone's allergic reactions.

1. - 3. soruları aşağıdaki parçaya göre cevaplayınız.

Thrifting offers several advantages that make it a favourable option for many consumers. Firstly, thrift stores provide affordable prices for a diverse range of items. Furthermore, thrift stores contribute to environmental sustainability by reducing waste. By giving second-hand items a chance, thrift stores play a crucial role in minimizing the overall impact of consumer goods on the environment. Moreover, many thrift stores work for various charitable causes and non-profit organizations. Therefore, shopping at thrift stores often means supporting them. Thrift stores offer an environmentally friendly, affordable prices, and socially impactful way to shop, but the downsides are the time-consuming nature of thrift shopping, lack of return policies, overconsumption due to cheap prices, and the effort required to find high-quality items.

1. According to the passage, thrift stores ----.

- A) can be very expensive if the item is considered to be antique
- B) are more common in bigger cities than they used to be
- C) help the environment since people reuse items and reduce waste
- D) only sell reusable clothing items to reduce waste
- E) are not very impactful on the environment

2. Which of the following is true about the downsides of thrift stores according to the passage?

- A) Since the items are limited, people can't find the right sizes.
- B) You cannot use the items for too long since they are old.
- C) It is allowed to return the item if you haven't used it yet.
- D) Thrift shopping can be done in a very short amount of time.
- E) People buy too many items because they are very cheap.

3. Which of the following could be the best title for the passage?

- A) How to Thrift Shop in the Best Way
- B) Advantages and Disadvantages of Thrift Stores
- C) Why People Should Prefer Thrift Stores
- D) The History of the Thrift Stores
- E) Similarities between Charities and Thrift Stores

1. - 3. soruları aşağıdaki parçaya göre cevaplayınız.

Palm reading, also known as palmistry or chiromancy, is the practice of fortune-telling through the study of the palm. Its origins are uncertain, but it dates back to ancient India and has roots in various forms in places like China, Egypt, and Greece. The practice has been prevalent in different cultures throughout history. It is believed that the lines on the palm hold important clues to a person's character, future, and well-being. The dominant hand is typically read for personality and life path, while the non-dominant hand reflects inherited traits. Common interpretations in palmistry include the life line, which represents health; the heart line, reflecting emotional well-being and romantic relationships; the money line, associated with fortune and career; the head line, representing intellectual abilities; and hand shapes, offer insights into a person's character.

1. According to the passage, palm reading ----.

- A) is an ancient practice that predicts the future correctly
- B) was banned in medieval times as it was labelled as witch-craft
- C) comes from ancient Greece but it's been spread to other civilizations
- D) is a common practice to find about one's past life
- E) has been a part of many cultures but its origins trace back to India

2. It is understood from the passage that each hand ----.

- A) has to show the same lines for the predicted events to be true
- B) represents and tells different aspects about a person and their life
- C) has the same lines and they show the same future
- D) changes lines, therefore their future, as the people grow older
- E) shows a person's life path that will happen in the near future

3. Which of the following is the best title for the passage?

- A) Ancient Civilizations and Their Religions
- B) Palm Reading History in Ancient India
- C) A Brief Information about Palm Reading
- D) How to Start Palm Reading Practice
- E) Why You Should Try Palm Reading

33. Jeffrey:  
- **Do you remember that math lesson in high school? The one where the teacher used cookies to teach us?**

Melissa:

- ----

Jeffrey:

- **Totally! It made it easier for us to understand fractions. And the cookies were delicious too.**

Melissa:

- **I agree. Those cookies helped us learn fractions in a practical and delicious way.**

- A) Not all teachers can use cookies to teach, but they can make lessons more interesting.  
B) I agree memorable lessons are important, but what if the lesson is memorable for a wrong reason?  
C) Oh, that was fun. He divided the cookies to explain fractions. It made math feel like a delicious puzzle.  
D) You're right. He had a plan. But not all teachers can do that. Some might confuse students more.  
E) I see your point. But we can't eat cookies in every lesson. What about other math topics?

34. Frank:  
- **The summer holiday we had in Türkiye was amazing. It was truly unforgettable.**

Scott:

- **Oh yeah, Türkiye was great. The beaches, the food, and the people. I loved everything about it.**

Frank:

- ----

Scott:

- **Absolutely. I've never seen water so blue. And the weather was perfect for a summer holiday. It was sunny every day.**

- A) Türkiye is special but everyone has different preferences. I prefer the nightlife in Spain.  
B) The beaches in Antalya were fantastic. Crystal-clear water and golden sand. We had so much fun swimming.  
C) And the people were so friendly. Remember that night in Istanbul when we got lost?  
D) For me, it was the hot air balloon ride in Cappadocia. It felt like we were in a dream.  
E) It was great, but there are other beautiful places too. What about the historic charm of Italy?

35. Brenda:  
- **I believe all zoos must be closed. Animals should be free. They shouldn't be forced to live in small spaces.**

Amy:

- ----

Brenda:

- **However, animals get stressed in zoos. They should live in their natural homes.**

Amy:

- **But zoos have vets and take good care of animals. They're safe and not suffering. I think zoo animals are luckier.**

- A) We can learn about animals from documentaries without keeping them in zoos.  
B) Breeding in zoos isn't the same as in the wild. Let's find better ways to protect wildlife.  
C) I promise we will find kinder ways to appreciate and protect wildlife in the near future.  
D) In my opinion, zoos are fun and teach us about animals. They help save endangered species too.  
E) But we should focus on protecting natural habitats instead of putting animals in large prisons.

36. Marcus:  
- **I started bodybuilding last week. It's great for health and muscles. You should try, too.**

Eric:

- ----

Anna:

- **But bodybuilding is more than lifting. It shapes your body and makes you strong. You look good.**

Eric:

- **I think running and kicking for hours soccer is enough to make me strong and look good. Football is the best workout.**

- A) I don't like lifting heavy things. It's tiring. I prefer football. It's fun and good exercise.  
B) Soccer is good only for legs, but bodybuilding is for the whole body, including the arms.  
C) Bodybuilding is not just for big muscles. It's about strength and feeling good.
